

Peertechz Publication

Peertechz is an open-access publishing platform dedicated to publishing high-quality research articles across 100+ peer-reviewed journals in diverse fields such as biomedical sciences, engineering, chemistry, and environmental science. It provides researchers with a global platform to share their work, ensuring rigorous peer review, wide accessibility, and the advancement of scientific knowledge.

Event Details :

Date: 6th May 2026

Time: 10:00 AM (UK Time)

Platform: Zoom (Virtual Event)

Conference Overview

This international conference brings together researchers, academicians, and industry experts to explore the intersection of materials science and sustainable forestry, focusing on tropical wood anatomy and mangrove ecosystems.

Join Us Virtually

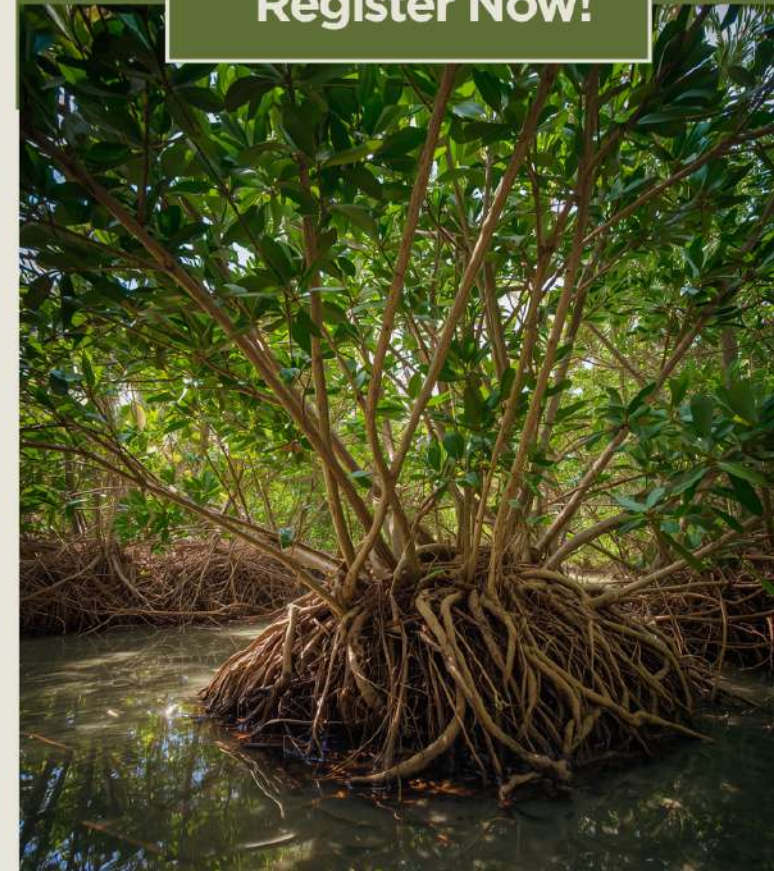

Explore cutting-edge research in tropical wood structure and properties
Discover sustainable forestry practices
Learn about mangrove ecosystem conservation and climate change mitigation

Materials Science and Sustainable Forestry

"Advancing Sustainable Materials and Ecosystem Resilience: Integrating Tropical Wood Anatomy with Mangrove Functionality for a Greener Future."

Register Now!

About the Conference

This conference brings together researchers, academicians, and industry experts to explore the intersection of materials science and sustainable forestry. The focus is on understanding tropical wood anatomy and its critical role in enhancing mangrove ecosystem functionality and environmental sustainability.

Our Mission

Linking tropical wood anatomy with mangrove ecosystem functionality for a sustainable future. Join global experts in advancing environmental research and conservation efforts.

Key Topics

- Advanced Wood Anatomy and Structure-Property Relationships
- Mangrove Ecosystems: Functional Ecology and Biogeochemical Processes
- Sustainable Forestry Practices in Tropical Regions
- Biomaterials from Tropical Wood: Innovations and Applications
- Mangrove Restoration and Coastal Protection Strategies
- Carbon Sequestration and Blue Carbon in Mangrove Ecosystems
- Wood Modification Technologies for Enhanced Durability
- Soil-Plant-Water Interactions in Mangrove Environments
- Sustainable Harvesting and Forest Certification Systems
- Coastal Zone Management and Climate Resilience

Who Can Attend?

- Researchers & Scientists
- Academicians & Students
- Forestry & Environmental Professional
- Industry Experts

Target Audience

This conference welcomes participants from diverse backgrounds including academia, research institutions, government agencies, and the private sector interested in tropical wood science and mangrove conservation.

Participation Benefits

Open to All Professionals

- Certificate of Participation
- Book of Abstracts
- Opportunity to Present Research
- Networking with Global Experts
- Access to Conference Materials
- E-Certificate of Presentation by International Organizing Committee (IOCM)

Join the Global Community

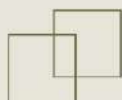

Enhance Your Experience

Connect with leading researchers and practitioners from around the world working in materials science and sustainable forestry.

Submission Requirements

Interested participants are invited to submit:

- Abstract
- Brief Bio
- CV
- Photo
- Research Interests

Contact Us

Peertechz Publications Inc.
10880 Wilshire Blvd., Suite 1101 Los Angeles, California 90024, USA

How to Participate

Interested participants are invited to submit their materials for consideration. We welcome researchers, academicians, and professionals from around the world to share their expertise and contribute to advancing sustainable forestry research.

Get Involved

Be a part of the conference in multiple ways:

Present Your Research

- Share your findings through oral or poster presentations

Join as a Speaker

- Deliver a talk and engage with a global audience

Attend as a Participant

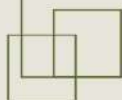

- Learn from experts and explore new research trends

Collaborate & Network

- Connect with researchers, academicians, and industry professionals

Submit Abstracts

- Contribute your work to the conference program

Call for Participation

“Submit your research and be part of a global scientific community.”

**Submission Deadline:
05 May 2026**
